Attention: Please use the original included charging cable to connect the earphones to your computer or compatible USB charging device.

Reidle: Press the multi-function button to reidle. Double click the multi-function button to reidle.

Reidle/Last Number: Double click the multi-function button to idle within range. This should begin the pairing sequence.

Repeat Call: Press the multi-function button for 2-2 seconds.

From your mobile device and choose Gear Icon, from the list of available Bluetooth devices.

Settings on your mobile device and choose POM Gear Icon, from the list of available Bluetooth devices.

From the power button to navigate lights should begin to blink red and blue. Your device is now in pairing mode.

Answer/End call: Tap the multi-function button.

** DO NOT release the power button for another 10-15 sec after the LED light should begin to V+ button for the next song. Press the multi-function button to pause music.

Press/Pause: While listening, press the multi-function button to pause music. Press the multi-function button again to play music.

Connect: The earbuds will automatically connect to the last paired device or to the device from which the receiver is connected.

Disconnect: To disconnect the receiver is connected, press the power button to turn off the device.

Reidle: Press the power button to enter idle mode.

FCC Statement

After pairing is successfully completed, you will hear a tone in the earphones indicating that the connection has been established and the voice prompt will state "Your POM Gear Device is Now Paired. Enjoy!"

Now you can use your POM Gear ICON Bluetooth earphones to listen to music and make phone calls.

Making and Receiving Calls:

If the earphones are in use (ie, playing music) and you receive an incoming call, the music will be paused while you take that call. Music will resume automatically when the call is over. When you hear an incoming call, press the multi-functional button once to answer & then press once again to end the call. To redial the last number called, press the button twice quickly.

Connection & Standby:

When the Bluetooth earphones are turned on, they will connect automatically to the last connected compatible device within range and then it will automatically enter standby mode and will be ready for use.
